

WEED / DEBRIS BOOM (RIBBON BARRIER)

Helps protect waterways from undesirable vegetation that spread by fragmentation, including:

- Eurasian Waterfilfoin
- Hydrilla
- Hyacinth

... and unsightly debris. Unique double mesh filter skirt keeps water moving but barricades plants and debris!

Colors: Standard float color is black. Other colors available include green and yellow. All colors are UV protected.

Sizes: Standard mesh skirt depths are 18", 24", and 36". Standard length is 50' but available in 10'-100' lengths.
